

# syd-eye (Glasses-mounted Camera System)

## Imagine Taking Photos Hands Free...

All too often, we want to take a photo but our hands are occupied, or we pull out our phones, but the moment has passed. Fear that no longer! With the syd-eye system, mounting a camera on your glasses lets you keep up with life's moments. Just power it up with your USB powerbank, point, and shoot!

### Easy to Use

To take a photo, just push a button, it's really that simple to use.

### Shooting in Low Light?

syd-eye features 2 super-bright LEDs too boost quality in lower light conditions

### Want to Shoot Video?

Future updates to the syd-eye platform will allow users to also shoot video.
